Summary

Passionate MERN stack developer and final-year BTech CSE student at Galgotias University. Experienced in building and deploying full-stack applications using MongoDB, Express.js, React.js, and Node.js. With a solid understanding of data structures and algorithms, demonstrated by solving hundreds of DSA questions, I am seeking opportunities to apply my technical expertise in a challenging and collaborative environment.

Education

Bachelor of Technology in Computer Science and Engineering (AIML)
Galgotias University (2021 – 2025)

Skills

- Programming Languages: C++, JavaScript
- Frontend: HTML, CSS, React.js, Tailwind CSS, Redux Toolkit
- Backend: Node.js, Express.js
- Databases: MongoDB
- Tools & Technologies: Git, GitHub, Postman
- Other Skills: Problem-solving, Debugging, API Integration

Projects

Industry-Level E-Commerce Website

- Developed a comprehensive e-commerce platform using the MERN stack, incorporating features such as user authentication and a user-friendly interface.
- Designed and implemented an admin panel that allows for the management of product listings, including creating, updating, and deleting products, ensuring efficient inventory control.
- Utilized best practices for responsive design and optimized performance to enhance user experience.

Flavoro Food Ordering App

- Developed a food ordering application using React.js that allows users to browse menus, place orders, and track delivery status.
- Implemented features such as user authentication, real-time order updates, and a responsive design for an enhanced user experience.
- Focused on creating an intuitive user interface to streamline the ordering process and improve customer satisfaction.
